GET READY TO REMOVE TREES OF HEAVEN

You've seen it popping out from your fence, out of the sidewalk, or even next to your home or business - **Tree of Heaven** is highly invasive to Oregon and can even **cause irreparable damage to your home**.

MSANA is partnering with the **East Multnomah Soil & Conservation District** this summer to equip neighbors with the tools and knowledge to help rid our community of this risky tree, so stay tuned for more info - or reach out if you want to get involved!
